

PERIPHERAL PXAMG VEHICLE APPLICATION GUIDE

Peripherals PXAMG Gateway iPod/HD Radio interface provides a brand new listening experience on the factory radio in the select Model/Year Vehicles listed below. The PXAMG is compatible with over 150 vehicles and because of that a specific installation harness is required. Locate your vehicle and order the item listed on the far right. We include the applicable harness for FREE (except the PGHFD1A). Other merchants sell them separately. Please also read the footnotes. **Remember that Discount Car Stereo.com is an Authorized Peripheral Electronics retailer; and as such all purchases made from us are eligible for full factory warranty and support.**

WARNING!! At this time only the specified model & years listed herein are compatible. This guide is updated as soon as new information becomes available.

MAKE	MODEL	YEAR	HARNESS	Order this part
Ford	Edge	2007-09	PGHFD1	PXAMG-F
	Escape*	2008-09	PGHFD1 + * PGHFD1A	PXAMG-F

VW FOOTNOTES: These are very important and should be read prior to making a purchase.
ALL- Radios MUST HAVE a "SAT" to operate in "Advanced Mode" (full text displayed on radio screen, HD radio option)
All – Radios (including Navigation Radios) without a "SAT" button operate in "Basic Mode" only (no text display, no options for HD Radio)
» Retains factory Satellite and auxiliary jacks
PGHVW1- Compatible with VW radios equipped with a "SAT" button excluding Beetle
PGHVW2- Compatible with VW radios **Not equipped with a SAT button** excluding Beetle
» Navigation radios DO NOT have a "SAT" button and operate the iPod in Basic Mode only (no text display etc) see below
» Not compatible with VW factory installed iPod adapter when using PGHVW3 or PGHVW2 with PGHVW2B
» When using the PGHVW3 harness the factory external CD Changer (if equipped) must be disconnected
Basic mode: This mode is available to all VW radio applications including Navigation radios and operates the iPod in CD Changer modulation
Basic iPod control (track up, track down, FF, REW) from radio, with iPod charging, No text display
Does not support HD Radio
» Keeps iPod clickwheel active (you can browse all iPod menus using the iPod clickwheel/screen)
» Same operation as Peripherals PXDP (iPod2car)
» Provides an auxiliary audio input
Note: if connecting the PXAMG-VW to operate in Basic Mode, the Factory external CD Changer must be disconnected (if present)
Advanced Mode: This mode is exclusive to VW radios with "SAT" button only (Satellite Emulation)
» Full control of the iPod (Browse by playlist, artist, album, genre, composer etc.)
» Provides an auxiliary audio input
» Support for HD Radio tuner (HD tuner is Optional and sold separately)

Power battery discharge issue has been resolved. Software .36c must be loaded to fix this issue.
***Both A and B sub harnesses are included.**

Recent updates are highlighted in blue
