

# ALPINE VERSATILE-LINK™ READY RADIO LISTING

Revised: March 9, 2025

## INTRODUCTION

The following is a partial listing of confirmed Alpine V-LINK™ radios. These support connection of an AUX cable/adaptor many of which are offered on by Discount Car Stereo.com. Keep in mind, not all Alpine radios have the ability to support an AUX device.

**Warning:** Alpine radios with an AI-NET connector guarantees supporting Alpine CD changers, but in order to support an AUX cable/adaptor, the Alpine radio must also be V-LINK™ ready, otherwise it will NOT recognize the AUX cable/adaptor. Please consult radio manual or contact Alpine for details.

Alpine Non-Versatile Ai-NET CD changer controlling radios may purchase our [BT2-ALPA](#) Bluetooth module.

Some Alpine **Non-Versatile-Link™** radios are capable of supporting an AUX cable/adaptor. These must have a pink/black interrupt wire on harness which must be grounded through a toggle switch (or similar device). Consult radio manual or contact Alpine for details.

Visit [DiscountCarStereos.com](http://DiscountCarStereos.com) for a variety of Ai-NET AUX input/adapters (e.g., ALP/AI-RCA, AAI-ALPA, IL- ALP etc.)

The following short list of Alpine M-BUS V-LINK™ radios support the following M-BUS cables: ALP/M-RCA, ALP/M-3.5M, ALP/M-POD, ALP/M-3INPUT, iC-ALPM etc.

**Warning:** Alpine radios with an M-BUS connector guarantees supporting Alpine CD changers, but in order to support an AUX cable/adaptor, the Alpine radio must also be V-LINK™ ready, otherwise it will NOT recognize the AUX cable/adaptor. Please consult radio manual or contact Alpine for details.

Alpine M-BUS radios without AUX input support may purchase our [BT2-ALPM](#) instead.

Confirmed Alpine M-BUS Versatile-LINK™ radios
