**Noteworthy:** 2009+ Marine radios and remotes requires new 8-pin marine remote/cable. They will not work with older Clarion Marine Remote Cables (6-pin) without an adapter (CCUMRA1) For the M309, CMD6, CMV1 and CMS1 they can only be used with the MWRXCRET 25' Marine Remote Extension Cable (8-pin) and or the MWRYCRET Marine Remote Y-Cable (8-pin).

**Footnotes:**

\*Will function with CCUMRA1 adapter, but LCD functionality is not supported and Mute button (if equipped) may not function.

\*\*Will function with CCUMRA2 adapter, but LCD functionality is not supported and Mute button (if equipped) may not function and IR signal pass-through is not supported when this cable is used.
