- This installation guide is provided as a GENERAL installation guide, some vehicles vary and may require additional steps. We do not accept responsibility for third party labor charges or modifications. Exercise due-diligence when installing this product.
- We do not accept any responsibility for vehicle damage or personal injury resulting from the installation of this product.
- Careless installation and operation can result in equipment damage.

Requirements:

RADIOS WITH 14 PIN PORT AND CD CHANGER CONTROLS

Introduction

This simple aux adapter allows users to connect and play any audio device with a 3.5mm jack to select 2003-12 Honda- Acura radios. Simply connect adapter to the radio 14-pin external device port and to audio device and enjoy stored content or music from internet connected smartphone, car play etc. The HON03-AUX replaces external CD changer, single cd player/cassette in lower dash or Satellite radio. To retain these features, purchase our [BTA-HON03](#) instead.

Installation

Remove radio from dashboard to gain access to the connector. (Vehicle specific radio removal instructions are not part of this guide, but may be available upon request)

Warning! Vehicles with blue 14-pin connector (See **Fig. 2**) are not compatible. Must have 14-pin white connector see in **Fig.1**

1. Locate 14-pin connector (See **Fig. 1**) on radio. (Usually on back or bottom)

Radio 14-pin port

Fig. 2
14-way plugs

2. Disconnect any device (XM Tuner, external slave cd/cd changer/cassette player)
3. Connect adapter 14-pin plug to radio 14-pin port (See **Fig. 1**)

Warning: To retain GPS guidance or Satellite Radio (SiriusXM), our [HON03-F/MM](#) t-harness (sold separately) is required

4. Connect 3.5mm audio cable (See **Fig. 3**) or similar to adapter jack (See **Fig. 4**) and route the other end to where audio device resides

(not included)

Fig. 4
3.5mm jack

Operation

1. Turn on ignition and radio
2. Press "CD" button on radio
3. Place audio device in play mode. If distorted, lower the volume on phone or if inaudible, raise volume on phone.

Warning! Playlist and Track selection is **NOT** possible from the radio. Use the smartphone built-in controls to access and control the audio files.

If correct operation is confirmed go ahead and reinstall the radio.

Frequent asks questions

1. **I'm currently subscribed to Satellite radio. Does this adapter work with SiriusXM?**
YES. To retain Satellite radio subscription, you must purchase and install the [HOND3-F/MM](#) T-harness. (sold separately)
2. **There is a CD changer in trunk. Will it still work?**
NO. External CD changer, Slave Cassette, Or Slave CD must be disconnected in order to use this part.
3. **Does the HOND3-AUX work on all Honda radios?**
NO; Works on select 2003-12 Honda-Acura radios with CD changer controls (14-pin port on back of radio).
4. **My radio has a built-in 6 CD changer, will the HOND3-AUX Work?**
YES. So long radio has the required 14-pin port
5. **Can I use the radio buttons to control my audio device?**
NO; you must use audio device built-in controls to browse music library.
6. **Will I be able to make phone calls using this device?**
NO; the HOND3-AUX does not support Hands-Free calls; however, speakerphone may be possible if phone supports it. Purchase our [BT3-HOND3](#) instead.
